

How to add the Cranfield Numeric Style to your Mendeley

To locate the Cranfield Numeric style within Mendeley, open up Word and begin writing. Once you have inserted a citation from the **References** tab, click on the drop down menu next to **Style** and select **More Styles**, as per screenshot below:

A new window will open. Select the tab **Get More Styles** and carry out a keyword search for **Cranfield**. You will be provided with the option to select **Cranfield University (numeric)**. Select **Use this Style**, click on **Done** and you will be directed back to your Word document where your reference list will be created in the Cranfield Numbered style.
